## IS FAMILY

Slavko Hrženjak has an exceptional respect and appreciation for this area, its history as well as immense love towards his family and animals, and all of that spurred him into building the Ranch Marina which was established in 2000.

# KOČEVSKO REGION

## AND UNESCO HERRITAGE

Kočevsko is wild nature and magnificent forest oasis. We are very proud of few preserved areas of virging forests. These are sanctuaries of intact nature where mankind did not yet interfere, chopped down trees and any way else exploit the forest. We are not entering those areas. We share great respect and protection. People admire the biosphere reserve only from a marked trail.

In a nearby vicinity the virgin forest Strmec may be reached. It is named by a steep slope of a Stojna mountain. On the other side of a valley we can hike Borovška gora hill and from the top gaze onto Krokavirgin forest which was added to UNESCO natural herritage list together with other european primary beech forests. This is our herritage and our responsibility to take care and protect.
